

GRANT FLYER BUILT ALONG NEW LINES

Aerostable Machine Said
Not to Infringe Upon
Wright Patents.

PLAN ELIMINATES LATERAL CONTROL

Pivoted Wings Are Operated
Automatically to Keep Plane
on Even Keel.

Following closely Orville Wright's statement that his attitude on the royalty question would stimulate inventors and make for progress in aviation comes the announcement of R. R. Grant, of Norfolk, Va., that he has successfully flown a non-infringing aeroplane. Grant, who is at the McAlpin Hotel, is a member of the American Institute of Electrical Engineers. He has been working on the machine for three years, but did not have his patent applications in the proper shape to make an announcement earlier.

The statement was given yesterday to "Aeronautics," and drawings of the machine are on file in the office of that publication. The new plane, which is known as the Grant Aerostable, is patterned to some extent on the old Langley type and is on the tandem order. The principle of automatic stability is incorporated in the machine, which eliminates lateral control as far as the operator is concerned.

Two planes are located in front and one at the rear of the machine, and the rear plane carries its share of lift. This is known as the principle of "three-point suspension." Mr. Grant asserts that the craft differs from all others in physical and mechanical principles in that the righting is caused laterally by a shifting action of the pressure.

The wings of the machine are pivoted at a point forward of the centre of pressure so that when the wind lifts one wing the other wing to be depressed automatically, bringing the machine at once to an even keel. The whole angle of incidence may be changed at the will of the aviator.

Grant makes many claims for his new flyer and states that he expects to bring the machine to New York this spring for a demonstration. He said last night that he has flown at the rate of eighty miles an hour during a twelve-mile wind, and that during the flight the weight carried was five and one-half pounds to the square foot of surface. The normal weight of the machine is 1,400 pounds.

A point in regard to how much flying boats are affected by motor boat regulations was settled yesterday by a letter received by the Aeronautical Society from D. J. Dougherty, secretary of the board of supervising inspectors of the Steamboat Inspection Service. The letter said:

"Referring to your letter of February 2, 1914, signed by E. L. Jones, secretary, enclosing a set of rules governing the operation of aircraft on water, you are informed that this matter has had the attention of the board of supervising inspectors, and its board has concluded that it has no jurisdiction over any craft while same is navigated in the air, but when such craft navigates in the water it is subject to the present rules."

ACCUSE MAYOR OF INSULT

Pounds, Connolly and Marks in
Arms Over Paving Decision.

Borough Presidents Pounds of Brooklyn, Connolly of Queens and Marks of Manhattan agreed yesterday that the attitude of Controller Prendergast and Mayor Mitchell in cutting their power in the matter of street pavements was wrong.

Mr. Pounds was most emphatic. "The opposition of the Controller to the expenditure of money for street repaving work is based on ignorance, or something worse," he said. "I do consider it a remark about the propriety of having the Borough Presidents sitting in the board and voting on appropriations which they are going to spend themselves to be an insult pure and simple."

"If the Controller's suggestion is carried out," said President Connolly, "most public improvements in the boroughs payable by assessments will have to be abandoned."

Borough President Marks said that \$500,000 should be spent for street pavement in Manhattan this year.

"It is monstrous for the city and economical for every citizen that we proceed with the most regularity and efficiency in our repaving work," he added. "It is my purpose to combat every needless expense, but I intend to fight just as aggressively for every outlay in the direction of true, broad economy."

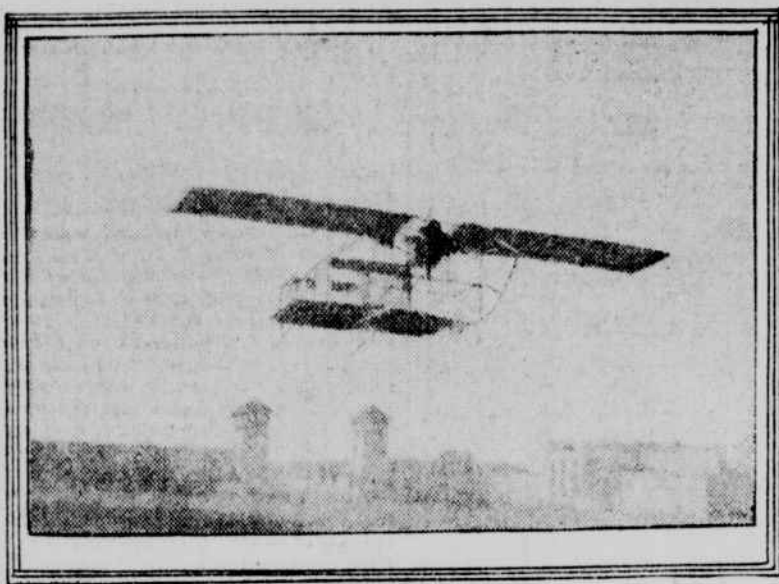

STOPDUCKING COLLAR FASTENER LIES FLAT ON NECK BAND

Eliminates chafe of collar-button, relieving neck of pressure and chafing. Made of gold plated wire, conforms to shape and movement of neck. Quickly attached to or detached from collar. Won't tear button-hole. Nothing like it for comfort.

Reduced facsimile of STOPDUCKING FASTENER attached to BACK collar band.
10c each, three for 25c
Sent postpaid. Money refunded if not satisfactory.

THE GRANT "AEROSTABLE."

ART COLLECTION TO THE MUSEUM

Mrs. Mandeville-Johnston Provides Generously for Columbia Also in Will.

Under the will of Mrs. Mary T. Mandeville-Johnston, filed in the Surrogate's Court yesterday, the Metropolitan Museum of Art receives her entire collection of paintings, ceramics, prints, rugs, tapestries, medals, bas-reliefs, fans, bronzes, copper, brass, crosses, embroideries and furniture. The will gives to the Columbia University chapter of Delta Kappa Epsilon Fraternity all the books that belonged to her late husband, Edward William Scudder Johnston, who was a lawyer.

Mrs. Johnston provided that the principal of trust funds amounting to \$50,000 shall go to Columbia University at the death of the life beneficiaries.

Mrs. Johnston was a daughter of the late Dr. Frederick R. Mandeville. She died on February 21 at No. 22 East 54th street. She put one-half of her estate in trust, the income to be paid to Mr. and Mrs. Louis Johnston, parents of her late husband, for life. At their death the principal is to be divided equally among the Hospital for Consumptive Children, American Female Guardian Society and the Home for the Friendless. The principal from the other half of residue will go to the same institutions on the death of Mrs. Sarah T. Mandeville, mother of the testatrix, and James Arthur Mandeville, a brother, who are to be successive life beneficiaries of the trust principal.

The testatrix also made provision for her servants. To Bridget Lynch, a "very faithful maid," she left the income from a trust fund of \$12,000. Miss Lynch will also share trust funds of \$2,000 to each servant in the employ of Mrs. Johnston for six years prior to her death. Each servant will receive the life income from funds of \$3,000. All these funds go to Columbia University at the death of the life beneficiaries.

Mrs. Johnston disposed of many pieces of jewelry, including a pearl dog collar, which she leaves to Mrs. Florence Allen Mayer. To Laura Blackwood she leaves her dogs, several pieces of jewelry and furs, and the income from \$10,000. Helen J. Aitken and Clara Aitken receive the income from trusts of \$10,000 each, which are to go to Columbia University when the trusts expire.

URGES FOSDICK FOR P. S. C.

Malone Thinks Appointment
Would "Win Confidence."

Collector Malone, who left town yesterday for a three weeks' tour of the West Indies on the steamer Pastores, of the United Fruit Company's line, said he had written to Governor Glynn urging the appointment of Raymond B. Fosdick, former Commissioner of Accounts, for Public Service Commissioner in this district, to succeed John E. Eustis.

He also urged the Governor "to lead the fight for the adoption of the five amendments submitted to him by the National Democratic Club to add safeguards to the present primary law."

Speaking of his recommendation of Mr. Fosdick, Mr. Malone said:

"His nomination by Governor Glynn for this most important office would, in my judgment, win the complete confidence of the thinking people of New York City without regard to partisanship."

It was reported yesterday that the name of George E. Hayes, a lawyer, of No. 111 Broadway and Riverdale, has been suggested to the Governor to succeed Eustis.

The commission is in deadlock over several matters, and it is necessary to fill the fifth place at as early a date as possible.

WINS ORATORY CONTEST

W. H. Draper to Represent
N. Y. U. at Colgate University.

William Henry Draper, a New York University sophomore, by his speech delivered on peace in Gould Memorial Hall yesterday won the right to represent the university at the Colgate next week. The choice of the judges was unanimous. Draper also won a prize of \$25.

The judges were Professor A. L. Boughton, dean of the College of Arts and Pure Science; Professor Scholls and Professor Briggs. Honorable mention was awarded to Joseph Ziad and Edward Marra.

The National Peace Association, under whose auspices the contests were held, offers a prize of \$200 for the winner of the contest at Colgate.

The Social Promoter, who so gladdened the hearts of all the Tribune Sunday Magazine readers last year, is back with a new series, the first of which will appear next Sunday. This is of the same general character as the former stories, but with a more piquant flavor, and a sincerity of narration that stamps it as being unquestionably potentially true.

It is called "Rise of the Radways." These were ambitious folk socially; but there was a rarefied skeleton in their closet, which kept them outside the Magic Tent. The skeleton was not important from the ordinary point of view; but "Ma Cohn," a dealer in cast-off stage finery, was not exactly a mother that could be blazoned in real society by an aspiring though rich daughter. The experiences of these aspiring people, as worked out under the expert direction of the Social Promoter, are mightily readable when reduced to writing. And they even entertained the Kaiser and the King!

OUST TAMMANY MEN, IS DEMAND ON CALL

Progressives Insist on Proof That
Treasurer's Election Was
Free from Deal.

(By Telegram to The Tribune.)
Syracuse, March 7.—Frederick M. Day, senator and H. L. Stoddard, leading Progressives in New York State, served a demand today on Homer D. Call, State Treasurer, that he and Michael Schaap, Progressive leader in the Assembly, discharge George W. Hutton, Deputy Treasurer, and the other Democrats in the Treasurer's office to prove that there was no agreement with Tammany by which Call received the Democratic support that elected him.

When asked if he would act on their suggestion and clean his office at the Capitol of Tammany men, Mr. Call answered that until he went back to Albany and learned what the situation there was he would not make any statement as to his future actions.

"I take the same stand now that I did when informed of my election. I have made no pledge, neither do I know of any pledges having been made to swing support to me. A few days before my appointment I received a telephone message from Progressive headquarters in New York asking if I would become a candidate for State Treasurer. I declined. First, because I did not believe I could spare the time, and then I was convinced that there was no chance of the election of a Progressive."

"John Alsever, at Syracuse, got in communication with me later, and after much persuasion I consented to allow the use of my name. Then I drove the matter from my mind, never once thinking that it was possible to elect a Progressive. You can imagine my surprise when I received a telegram from Progressive Leader Schaap in the Assembly announcing my election. It was the biggest surprise I experienced."

WILL HASTEN FREE TOLLS REPEAL BILL

Leaders Agree to Call Up the
Measure in House in About
Ten Days.

Washington, March 7.—The Sims bill, for repeal of the coastwise shipping exemption clause of the Panama Canal act, probably will be laid before the House in about ten days. Mr. Underwood, the Democratic leader, and Chairman Adamson of the Committee on Interstate Commerce reached an agreement late today to press the measure after the passage of the rivers and harbors appropriation bill, which will follow the agricultural appropriation bill next week.

It is thought to-night that about fifty Democrats will vote against the administration plan. Republicans are also divided, but it is understood that Representative Mann, the minority leader, will oppose the bill, and that Mr. Underwood will also vote no on the ground that the Democratic platform binds him to oppose the President in this matter.

While a rule to expedite consideration will be available, it may not be necessary, as both sides are eager for discussion. Representative Sims, of Tennessee, author of the repeal bill, predicted to-night that it would become law without much delay.

A minority report from the committee will be prepared by Representative Knowland, of California, Republican. Representative Lafferty, of Oregon, Progressive, probably will join with him. A separate report may be made by Representatives Doremus, of Michigan, chairman of the Democratic Congressional Committee, and O'Shaunessy, of Rhode Island, Democrat, who voted against repeal in the committee.

Mr. Knowland said to-night that he proposed to make his minority protest against repeal of the exemption a vigorous criticism of the President's demand, and that it would be too forcible for Doremus and O'Shaunessy, as Democrats, to sign.

JEWISH ACTORS IDLE

Will Ask Mayor to Have Theatre Law Amended.

Jewish vaudeville actors are suffering from hard times. Out of 25 members of their union it is said 20 are idle, many being thrown out of employment also by the ordinance compelling vaudeville theatres to be fireproof unless they seat less than 200 persons.

The actors want the ordinance amended so that the unemployed may be able to get engagements. Arrangements are being made for a parade of unemployed actors, with their families, to City Hall, where they will appeal to Mayor Mitchell to have the ordinance amended.

DISEASE MENACE SHOWN

East Side in Peril from Garbage, Is Charge.

An appeal to Mayor Mitchell will be made by East Side sanitation bodies tomorrow, asking him to order removed at once the snow piles in that district which are filled with garbage and present a disease menace.

Tours of the East Side made yesterday and the places where chance of infection were most imminent noted. These places in the order of their danger will be made known to the Mayor in a report being prepared by the Central Federated Union. Ernest Bohm, secretary of the federation, said yesterday that cleaning of garbage filled side streets is necessary to health.

MILITIA CALLED OUT FOR KELLEY 'ARMY'

California's Idle Scorn
Work, but Demand Food
and Carfare.

GOVERNOR'S OFFER OF JOBS REFUSED

Sacramento Wrestling with Problem of 1,500 Men on Way to Washington.

Sacramento, Cal., March 7.—Sacramento wrestled all day with the unemployed problem precipitated by the arrival here of "General" Kelley's army, on its way to Washington. No solution was reported to-night, but a company of the state militia was ordered out by Adjutant General Forbes to guard the state arsenal, where a large quantity of arms and ammunition is stored, and to be in readiness to answer a riot call. Companies at Oroville, Stockton, Chico and Woodland were notified to hold themselves in readiness for similar service.

More than three hundred recruits joined the army, which is now divided into two rival factions of almost equal strength, one obeying the orders of "General" Kelley and the other composed of seceders. About fifteen hundred men are listed in the two camps. Leaders of the men called at the executive offices today and demanded of Governor Johnson that they be supplied with food and transportation to the state line. The Governor offered them work instead, and they refused, frankly declaring they would accept no employment until they had completed the march to Washington.

"For the men who want work I have the greatest sympathy, and I am willing to do everything I can to help them," said the Governor. "For the men who won't work, which I understand is the principle with the Industrial Workers of the World, I have no sympathy."

"You all have admitted that you have not been seeking work. You have refused the position which I offered you this very day. You say that the majority of your army will not work until they have completed their journey to Washington. Therefore, you do not present an unemployed problem. What you are presenting is a particular propaganda and asking the state to assist you in spreading this propaganda. Those are not the actions of unemployed men."

The Governor recognized in James McCameron, one of the committee, a man who had begged from the Governor twice in San Francisco. McCameron admitted to the Governor that he had told him a falsehood to obtain money.

St. Louis, March 7.—An army of unemployed men are being recruited here for a march to Washington, where they plan to visit President Wilson in an attempt to obtain employment. E. C. Sandman, a teamster, who will lead the army, announced to-day that 800 men already had enlisted and that more are expected to do so before the army leaves St. Louis.

SOLD \$450,000 PICTURES HERE IN TWO YEARS

Receivers' Inquiry Shows Art
Firm's Dealings—Goods Said
to Have Been Removed.

Chicago, March 7.—Wholesale dealings in the works of Turner, Corot, Diaz, Innes and of living painters were told of here today in the receivers' inquiry into the assets of Moulton & Ricketts, art dealers. Robt. H. Ricketts, sole representative of the firm, which has branches in New York and Milwaukee, testified to selling \$450,000 worth of pictures to one Fifth avenue, New York, art dealer in the last two years. He shipped the masterpieces of the Barbizon and other schools in lots of forty and fifty at a time, he said.

Ricketts said that he recently sold two small Turner water colors for \$3,000. The Turners were consigned to him, he said, by L. T. Kirby, of Jacksonville, Ill. Attorneys for Ricketts's creditors tried to make it appear that the art firm had been disposing of its pictures at forced sale.

Attorneys for Moses S. Moses, an art dealer, in applying to Judge Mayer, in the United States District Court yesterday for a receiver for Roy Ricketts, an art dealer, of No. 37 Fifth avenue, told the court that on Friday night goods had been removed from the store.

Ricketts is head of the firm of Moulton & Ricketts, and has a branch store in Chicago. The Chicago Title and Trust Company has been named as receivers in Chicago. The liabilities are said to total \$100,000 and the assets \$50,000.

Rosenberg & Heermann, attorneys for Moses, told the court that within the last few months paintings valued at \$50,000 had been transferred to John Levy, of this city. Philip J. McCook was named ancillary receiver.

WOMAN'S GOOD AIM GIVES NEGRO CHILL

She Puts Two Bullets Through
Hat and Covers Him Until
Police Arrive.

Mrs. Louis Piercy, of Jersey City, put several shots through the hat of a negro she found trying to escape from her back yard yesterday morning.

"Hil on, there, lad, I see you'll wait for the police, but please do stop that shooting at me," he begged. Mrs. Piercy agreed, but kept him covered until the police arrived.

Mrs. Piercy lives at No. 21 Reid street, in the Bergen Heights section. Her husband is a crack pistol shot, and she often practices with him.

She was awakened yesterday morning a little after 1 o'clock by a noise and located it in the rear of the house. She picked up her revolver, raised the window and saw a negro dash from the back door toward the fence. He discreetly stopped after two bullets had punctured his hat.

The prisoner said he was George McAllister, of No. 353 Lexington avenue, Manhattan. He was held without bail.

J. P. Whitney Pleads Not Guilty

San Francisco, March 7.—J. Parker Whitney pleaded not guilty to-day in the United States District Court to charges preferred against him under the Mann "white slave" traffic act by the U. S. Attorney. Technical demurrers to the indictment were overruled by Judge Dooling, and the case was continued until March 21, when it will be set for trial. Whitney comes of a wealthy and well known family.

PIANOLA RECITAL

at AEOLIAN HALL

Monday, March 9, 1914, at 3 p.m.
First of a Special Series

Admission without charge

COMMERCE STUDY IS CASH IN POCKET

Report of N. Y. U. School Shows
Increase in Earning Power
of Its Students.

The students of New York University who attend the School of Commerce, Accounts and Finance are earning a total of \$188,293.65 monthly, or an average of \$85.53 a student.

The average time spent in school was nine hours a week according to the report of the secretary, Charles W. Gerstenberg, made public yesterday, a like amount of time in preparation and forty hours weekly in outside employment, making a total of fifty-eight hours of work and study.

There is in the statistics a justification of the claim that education means increased efficiency, for the average salary of the students has increased. Before entering the school the salary was \$68.37; at the end of the first year, \$70.26; at the end of the second year, \$83.66; at the end of the third year, \$104.83. This shows an increase of 15 per cent the first year, 21 per cent after the second year and 19 per cent after the third year.

The increase during their undergraduate days was well kept up after graduation. The figures gathered from the alumni show increases after graduation as follows:

Year.	Per month.	Year.	Per month.
1st.	\$120.88	1st.	\$210.00
2nd.	120.88	2nd.	210.00
3rd.	120.88	3rd.	210.00
4th.	120.88	4th.	210.00
5th.	120.88	5th.	210.00
6th.	120.88	6th.	210.00

The bureau for getting positions for students, which is called the efficiency bureau, has offered 30 positions. Some of the positions now on file in the efficiency bureau are: Cost accountant, \$5,000 to \$5,500 a year; basketball coach, \$1 an hour; teacher of bookkeeping, \$700 a year; young men to be trained as automobile salesmen, \$75 a month; bookkeeper, \$30 a week; assistant professor, \$1,500 a year; office manager, \$4,000, and clerk, \$10 a week.

VENUS VISITS SYNAGOGUE

Congregation Angry at Prank of Snow Sculptor.

Jewish residents of Patchogue, Long Island, are seeking the arrest of a sculptor who modelled Venus in snow and set her on the steps of the synagogue Alia Wath Achen yesterday morning.

The statue, a copy of the Venus de Milo and evidently done by a sculptor, met worshippers as they arrived at the synagogue. They gathered in an excited group before the statue that tilted her seven feet of snow toward them as she hunched, melted.

Harry Eisenberg, the sexton, led the rush on the statue, and soon there was only a heap of trampled snow. Edward Tresselt, a small boy, attempted to rescue the head of the statue, but it was taken from him and destroyed. Afterward the worshippers were sorry, because if it had been preserved it might be the means of locating the sculptor.

Several sculptors live near Patchogue, but all denied knowledge of the snow Venus.

"Whoever did it will be punished," said Mr. Eisenberg. "We are determined to find the guilty ones. No boy is responsible for the desecration. Only a sculptor could do such work. If it happened to another church in Patchogue the authorities would apprehend the guilty ones. We will spend our own money on this affair, and when we locate the man or men responsible there will be arrests."

ROMANCE REUNITES PAIR EX-INSPECTOR'S SON HELD

Both Once Married, E. P. Gavit and Mrs. Marie Cooke Wed.

Erastus Palmer Gavit, president of the Municipal Gas Company of Albany, and his childhood companion, Mrs. Marie Turner Cooke, got a license yesterday at the City Hall and were married a few hours later in the Brick Presbyterian Church by the Rev. Dr. William P. Merrill. The bride is the daughter of Major Emory S. Turner, president of the Anderson Art Galleries.

The bridegroom's first wife was the only daughter of the late Anthony N. Brady. She was killed two years ago in the New Haven wreck at Westport. Mrs. Gavit, the bride of yesterday, obtained a divorce from her former husband in April, 1909, in Colorado.

The couple were born within a few miles of each other, and their childhood acquaintance was renewed only after Mrs. Cooke obtained a divorce from her husband. Only close friends and relatives attended the wedding. The couple left the city for a short trip through the South.

Lone Bandit Holds Up Bank.

Sacramento, Cal., March 7.—A bandit walked into the Oak Park branch of the Sacramento Bank, of this city, at noon today, covered the cashier with a revolver and escaped with \$3,000 in gold, silver and currency. He forced the cashier to unlock the vault and then locked him in the lavatory.

State May Buy Van Buren Home

Albany, March 7.—The Martin Van Buren mansion, in Kinderhook, in which town Governor Glynn was born, may be turned into a summer State Capitol. Assemblyman Hoover introduced a bill today proposing the appropriation of \$25,000 for the purchase of the old mansion.

J. M. Gidding & Co.

564, 566, 568 Fifth Avenue at 46th St.

THE highest achievement in the designing of Women's Outer-dress is reached in the

Authentic French Fashions

comprising the Gidding Spring displays.

The foremost artists of Paris have contributed their greatest triumphs to this exhibit, until perfect gowning finds ultimate expression here—

Tailleur Suits from PAQUIN—Tango Dresses from PAQUIN—Lace Over-Blouses from PAQUIN—Costume Suits from DOUCET—Coats from DOUCET—smart Limousine Coats from WORTH—as well as the newest ideas of such noted couturiers as JENNY—BEER—LANVIN—DRECOLL—LINKER—BULLOZ—HAVET—MARTIAL et ARMAND and PREMET—the entire assemblage embracing Afternoon and Evening Gowns—Dress Frocks—Wraps—Coatees—Blouses and Guimpes—Separate Skirts—Two- and Three-Piece Suits—Coats.

Exquisite Millinery

from the leading Parisian modistes including REBOUX, MARIA GUY, GEORGETTE, VARON, LEWIS, MADELAINE, LOUISE and POIRET.

Among the charming new creations are the picturesque Watteau Hats, and the smart "Tilt" Effects, Turban, Poke and Small-brim Styles in Lizere and other new straws, trimmed with satin veils, Georgette frills, Talbot roses and varied flower effects.
